Role

1.1 The Role of the Committee

The Technical & Sustainability Committee (**Committee**) will:

- (a) assist the Board to meet its oversight responsibilities in relation to the Company's technical and sustainability policies and practices;
- (b) monitor and keep the Board informed regarding technical, health, safety, environment, social responsibility and sustainability aspects of the Company's exploration and mining operations;
- (c) provide the Board with advice and recommendations as appropriate to support compliance and continuous improvement or following review of relevant significant incidents requiring corrective action; and
- (d) receive and review reports from the Chief Executive Officer, Project Director and/or other senior executives / managers of the Company (**Management**) relating to their relevant areas and make comment and recommendations to the Board as considered appropriate.

Duties

1.2 General Duties

The Committee will:

- (a) Review and recommend to the Board the adoption of appropriate policies and procedures prepared by Management relating to:
 - (i) Health, safety, environment, community relations, social responsibility and sustainability (**Sustainability Matters**); and
 - (ii) technical matters relevant to the Company's development, construction and operation of its mining projects (**Technical Matters**);
- (b) Recommend to the Board such updates or amendments as suggested by Management are required from time to time so that the Company's policies and procedures relating to Sustainability Matters and Technical Matters reflect latest industry standards;
- (c) Monitor the Company's operational performance and the effectiveness of the implementation of the relevant policies and procedures relating to Sustainability Matters and Technical Matters (including performance against relevant targets);
- (d) Monitor the Company's compliance with legislative and administrative requirements relating to the Sustainability Matters and Technical Matters within its responsibilities and act as the interface between the Board and Management in this regard;
- (e) Monitor emerging developments regarding Sustainability Matters and Technical Matters, and make recommendations to the Board in respect of their impact or potential impact on the future operations and significant projects of the Company;
- (f) Receive and consider reports on significant accidents, environmental incidents, community

- concerns and breaches of policy or system failure and make recommendations to the Board in respect of such matters;
- (g) Receive and consider any relevant internal or consultant reports in respect to Sustainability Matters and/or Technical Matters;
 - (h) Review Management initiatives including continuous improvement programs, together with the identification and management of risks relating to Sustainability or Technical Matters, including emerging risks that have the potential to have a material impact on the Company;
 - (i) Review reports and statements from Management in relation to the adequacy, integrity and effectiveness of the risk management systems, internal controls, processes, procedures and resources used to manage risks relating to any Sustainability Matters or Technical Matters including the identification, assessment, elimination, avoidance and control of these risks;
 - (j) Review investigations into any significant Sustainability Matters or Technical Matters, which have the potential to have a material impact on the Company, including the timeliness of the response to the incident, remediation, and the status of actions to prevent recurrence;
 - (k) Review programs and processes for internal and external communication of the Company's approach to managing risk relating to Sustainability Matters and Technical Matters;
 - (l) Where applicable or required, seek and obtain assurances from Management that the Company's operations are in compliance with all relevant legislation relating to Sustainability Matters and Technical Matters and investigate any areas of material non-compliance;
 - (m) Review quarterly and special reports prepared by Management regarding Sustainability Matters and/or Technical Matters and advise the Board regarding any required action;
 - (n) In respect to Sustainability Matters:
 - (i) oversee annual sustainability reporting, including reviewing and recommending to the Board for approval the Company's sustainability report (including any public targets to be incorporated into the Company's sustainability report); and
 - (ii) review and report to the Board on reports from Management regarding the sufficiency of financial, technical and human resources to satisfy the Company's obligations regarding Sustainability Matters.
 - (o) In respect to Technical Matters:
 - (i) review appropriate Management reports regarding technical and operational issues arising in connection with the Company's exploration, geological, mining and production activities;
 - (ii) review appropriate Management reports regarding mining and production development and expansion programs, including scheduling and capital cost requirements;
 - (iii) review appropriate Management reports regarding exploration programs and advise the Board regarding business development opportunities;
 - (iv) review and report to the Board on reports from Management regarding the sufficiency of financial, technical and human resources to ensure the proper and timely development

and advancement of the Company's exploration, projects and mining operations in accordance with the Company's strategic and corporate plan;

- (v) for proposed and existing mining operations, review Management reports on behalf of the Board and make recommendations regarding:
 - the annual budget and life of mine plan;
 - operating and production plans and reports; and
 - significant technical risks and mitigation strategies;
- (vi) review on an annual basis, having regard to listing and other regulatory requirements and relevant legislation, Management reports and statements regarding the mineral resource and mineral reserve estimates of the Company's mineral properties (**Mineral Estimates**);

Reporting

Reporting Responsibilities

The Chairperson of the Committee will:

- (a) Report (verbally or in writing as considered appropriate) to the Board, at the following Board meeting, on:
 - (i) the proceedings of each meeting of the Committee, bringing forward all recommendations of the Committee which require Board endorsement, approval or recommendations; and
 - (ii) any other relevant matters deemed by the Chairperson to be of sufficient importance to warrant consideration by the Board; and
- (b) Ensure that the minutes of meetings of the Committee are provided to the Board.

Composition

Composition of the Committee

- (a) The Committee will be appointed by the Board and shall be composed of at least three members, including an independent non-executive Director as Chair and the Chief Executive Officer (CEO).
- (b) The Board will strive to ensure that the Committee has an appropriate diversity of membership with the relevant expertise in technical, health, safety, environment, social responsibility and sustainability matters.

Attendance

Attendance

- (a) Members of the Committee, and any other Directors wishing to attend, are entitled to be present at Committee meetings (except in circumstances where there is a conflict of interest).
- (b) At the discretion of the Chairperson of the Committee, the Committee may extend an invitation to any person to attend all or part of any meeting which it considers appropriate. In particular the

Committee may meet with external advisers, any executive or other employee, any other non-executive Director, and may do so with or without management present.

Meetings

Frequency

The Committee will meet at least twice a year (but nominally quarterly), with further meetings as required or deemed appropriate by the Board. The Committee's meetings will be regulated in accordance with and applicable provisions of the Constitution of the Company.

Agenda

The Company Secretary (or nominee as secretary to the Committee) will:

- (a) In conjunction with the Chairperson of the Committee and the CEO, settle agendas for and arrange meetings of the Committee so as to ensure timely coverage of all the Committee's business and specifically the business covered by the current meeting planner;
- (b) Distribute agendas and supporting papers to members of the Committee in advance of the relevant meeting; and
- (c) Keep and distribute minutes of each meeting.

Quorum

A quorum shall be any two members or greater number as determined by the Board.

Meetings by Instantaneous Communication Device

Meetings of the Committee may be held by any instantaneous communication device through which all persons participating in the meeting can hear each other.

Authority

Authority of the Committee

- (a) The Committee is a sub-committee of the Board and shall have no authority independent of functions delegated to it by the Board.
- (b) The Committee is authorised to:
 - (i) Seek any information it requires in order to perform its duties, including to question any Director or employee of the Company, subject to all applicable laws; and
 - (ii) Obtain, at the Company's expense, external legal or other professional advice on any matter within its Charter or the Committee's duties and responsibilities under this Charter.
- (c) The Committee will have the power to conduct or authorise investigations into any matters within its scope of responsibilities subject to all applicable laws.
- (d) The findings of the Committee shall not relieve the Board of any of its responsibilities.

Review

Review of this Charter

The Committee's Charter will be reviewed regularly and updated as required or as deemed appropriate by the Board.
